## WORK EXPERIENCE

### **Junior DevOps Engineer**

#### **Accenture**

Jan 2022 - Sep 2023

Maintained git workflows for source code management  
Successfully implemented CI/CD pipelines for application deployment on  
Kubernetes using Jenkins  
Maintained Pods status as running after deployment.  
Created docker images. and optimised the size of images.  
Written bash scripts to reduce manual intervention  
Provided support to software developers and troubleshoot the problem  
while deploying the application.  
Actively involved in scrum meetings.

### **Web Developer Intern**

#### **Algoocean Technologies Pvt Ltd**

Aug 2021 - Nov 2021

Developed Web Application with Angular and Integrated with APIs  
Implemented Code Pipeline to deploy apps in cloud through AWS  
Involved in Client Meeting for gathering Requirements and understanding  
the need of application.  
Added new features to existing web applications.  
Worked in agile environment.

## PROJECTS

### **Random-Poem**

React web application that generates poem calling third party api (used hooks).  
[https://github.com/7eet/Book\\_Library](https://github.com/7eet/Book_Library)

### **Book Library**

Web application where user can view, add and delete books.  
[https://github.com/7eet/Book\\_Library](https://github.com/7eet/Book_Library)

### **Random-Quotes**

Gives you random quote when you click on button.
